If any of the above information is incorrect, please contact me at 1-877-446-2632 x , so that I may update our records. Please refer to Technical Assistance Report 105697. Further, if you are aware of any additional investigators available to assist with point of contact

responsibilities please let me know so that I may add this supplemental information to the case details.

In addition, NCMEC staff generated a "Seen Before" report based on your submitted case files.

A "Seen Before" report contains case specific information of when a file has been previously submitted to the CVIP Child Recognition & Identification System (CRIS) or NCMEC's CyberTipline, including the name and contact information of a submitting law enforcement agency, the case number, and/or the number of the CyberTipline Report or the Child Identification Report. Law enforcement agencies and prosecutors may use the information contained in this report to further investigate whether the facts of a case support charges for the receipt or distribution of child pornography.

The analysis performed on this particular case indicated that there are one or more files which were previously submitted to CRIS and/or the CyberTipline by an electronic service provider. NCMEC has sent a report documenting this information and detailing the distribution of the file(s) separately to your email account.

Please note, NCMEC has also sent a copy of this notification to the FBI Office for Victim Assistance Child Pornography Victim Assistance (CPVA). CPVA may contact your agency regarding victim contact information and notification preference in accordance with the Crime Victims' Rights Act, 18 U.S.C. § 3771. Should you have any questions for CPVA, you may contact them at 1-877-236-8947.

Additionally, NCMEC has provided a copy of this notification to the Executive Office for United States Attorneys (EOUSA) which will coordinate with Victim Witness personnel towards the collection of a victim impact statement.

In addition, NCMEC has a list of current points of contact that are willing to serve as a mentor to those new to this role. These mentors are available to answer questions and can guide you through setting up a system to handle image confirmation requests, including providing a sample affidavit if needed. Please contact CVIP and we'll be happy to provide a mentor referral.

Should you have any questions regarding this matter, or need any supplemental information pertaining to your case, please feel free to contact me.

Best Regards,

Matthew Stein
